ELECTRIC ASSISTED SEEDER

e.SEEDCAR

Functions of the seeder e.SEEDCAR

The Rotadairon® e.SEEDCAR is an electric assisted seeder which will allow you to comfortably turf your land and preserve the environment

The machine is fitted with a quiet electric motor and its battery has an autonomy of 60-90 min, allowing for about 2500 m² per cycle.

The metal mesh roller, at the front, wafts the soil. Then the seed drill deposits the seeds. Finally the smooth rear roller, ideally compacts the soil to obtain a good germination and avoid the marking of the steps of the user.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.

- 1 Seed level indicator
- 2 Seed flow adjustment
- 3 Seed Depot Calibration Auger
- 4 Quick adjustment of handlebar height
- 5 Lithium battery
- 6 Stainless steel gravity drill
- 7 Advancement trigger
- 8 Quick opening / closing system by guillotine, without flow change
- 9 Option : Extra battery

Machine	e.SEEDCAR
Seeding width	700 mm (27" 1/2)
Autonomy	60 - 90 minutes (≈ 2500 m²)
Lithium battery	36 V / 11.6 Ah Supplied with charger 230 V (E/F plug) Full charging time : 3h30
Total width	840 mm (33")
Front roller type	Metal mesh
Front roller diameter	220 mm (8" 1/2)
Rear roller type	Stainless steel smooth
Rear roller diameter	200 mm (7" 3/4)
Weight	56 Kg (123.4 lb)
Transport dimension w x L x H	860 mm x 850 mm x 1085 mm (33" 7/8 x 33" 1/2 x 42" 3/4)
Seeder	
Type of seed drill	Stainless steel gravity seed drill
Seed rate adjustment	Adjustment dial 0 to 6
Seed rate calibration	Calibration bucket
Seed drill capacity	55 liters (14,5 US gal)
Option	Extra battery
