STONE BURIER FOR HYDRAULIC LOADERS

RDH 60

Functions of the stone burier RDH 60

This soil preparer and stone burier is intended for hydraulic loaders. There are two versions of the machine hitch:

- Bobcat type hitch plate : RDH 60
- Adaptable to your carrier by your own : supplied without hitch plate, without hoses, without couplers : RDH 60 ADAPT

It allows the building or renovation of green spaces by preparing the seed bed before seeding. The machine is multi-purpose, it allows tilling, burying (stones, rubbish, herbs, etc.), levelling, mixing and rolling the surface. The use is made in direct or on a ground previously decompacted in depth and cleared of large stones.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.
